Colleges' Marketing
Competition at
Niagara College

Marketing Case – Student Statement of Integrity

As participants in the Marketing case, we promise that we did not confer with any coaches, peers, or others after the subject of the Marketing Case was identified. We also promise that we did not communicate with, or contact any of the members of the organization identified in the case (including any affiliated companies and/or the parent organization) and have completed all of the industry and company research on our own.
